1. Transmittal of the translation to the applicant.

The International Bureau transmits herewith a copy of the English translation made by the International Bureau of the international preliminary examination report established by the International Preliminary Examining Authority.

2. Transmittal of the copy of the translation to the elected Offices.

The International Bureau notifies the applicant that copies of that translation have been transmitted to the following elected Offices requiring such translation:

CN, EP, KR

The following elected Offices, having waived the requirement for such a transmittal at this time, will receive copies of that translation from the International Bureau only upon their request:

US

Reminder regarding translation into (one of) the official language(s) of the elected Office(s).

The applicant is reminded that, where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report.

It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned (Rule 74.1). See Volume II of the PCT Applicant's Guide for further details.

The invention set forth in claims 1 and 2

None of the documents cited in the international search report discloses the feature wherein a relay station judges whether the partner terminal is compatible with 3-dimensional viewing and this feature would not be obvious to a person skilled in the art.

The inventions set forth in claims 3 and 16

The inventions set forth in claims 3 and 16 are disclosed in document 3 (fig. 3 and paragraph 0015) and, therefore, lack novelty and do not involve an inventive

step.

The invention set forth in claim 4

The invention set forth in claim 4 is disclosed in document 4 (page 3, right column, lines 24-30) and, therefore, lacks novelty and does not involve an inventive step.

The inventions set forth in claims 5-8

The inventions set forth in claims 5-8 do not involve an inventive step in the light of documents 5 and 6. It would be easy for a person skilled in the art to apply the position correcting feature, which is disclosed in document 5 (paragraphs 0007, 0034, 0041) and document 6 (paragraph 0026, 0027), to the device disclosed in document 3.

The inventions set forth in claims 9-15

None of the documents cited in the international search report discloses the feature wherein in addition to providing one camera, a second detachable camera can be provided to the terminal and the feature wherein in addition to providing one camera, a second camera can be operated using remote control. Moreover, this feature is not obvious to a person skilled in the art.
